Discover the benefits

Of using local

Reputation matters

Local trades businesses rely on word of mouth so their reputation matters. This means that your chosen trade will likely go the extra mile for you

Contact and communication

Local trades businesses don't put your call in to a queue that you have to navigate to speak to them. Usually you call them directly, often their landline numbers are even diverted to their work phone which means you shouldn't ever struggle reaching your chosen trade.

Local economy

Hiring a local trades company means you're supporting a local business and helping the owner pay for their kids football and music lessons, this means that you're directly contributing to the growth and stability of your local area.

Smoke alarms

Is your home protected? Smoke alarms are a vital piece of safety equipment in the event of a fire. Information on the government website says you're 9 times more likely to die in a fire if you do not have a working smoke alarm in your home.

Here are the facts

- Cooking appliances are the main cause of fires in the home
- Around 5 accidental dwelling fires a day are started by smoking
- Faulty electrical appliances cause over 3,500 fires in the home each year
- Nearly 3 accidental dwelling fires a day are caused by candles.
